

Topic: JSON Prompting.

Takeaways

JSON → JavaScript Object notation.
 Value send as key: value pair.
 JSON Prompting → Image and video generating purposes.
 Construct JSON format using Scale framework.
 • Md → Markdown file → AI agents based on .md file.

Summary

Today they covered JSON Prompting and explained how to generate this prompt via Scale framework formats. SCALE → Subject, Composition, Action, Location, Ethetic.
 Then understood how to generate .md file and it's necessity for image and video generation.

Today's Task

SUBMISSION STATUS	NOTES / REMARKS
☒ Submitted Task completed and shared	JSON Prompt Understood Prompt engineering SCALE framework and .md file Assignment completed with Use of Tamilan traditional culture.
☐ Not Submitted Will catch up tomorrow	

Tick the box only when it's true. Lying to yourself is the only real failure.

Image and video created based on assignment and all of them uploaded in to Github Repository
